Subject: Dimock well data - request for additional time to review
Hello, Mike, Vickie and Karen

At EPA R3's and the residents' request, ATSDR R3 has preliminarily reviewed the water sampling data from PADEP and Cabot for approximately 20 private wells in Dimock, PA.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

Ex. 5 - Deliberative

A few wells in the site area do not appear to ever have been sampled. We have been informed that some residents have refused to accept treatment systems, citing the post treatment data showing ineffective treatment. It would be beneficial to have more time to review this information in more detail to further consider the public health implications. We will prioritize evaluation of the well data based on the

preliminary screening results.

Lora
